

## **Annabella Town Source Protection Public Notification**

Drinking Water Source Protection Plans for Annabella Town Culinary Water system are available for your review.

They contain information about source protection zones, potential contamination sources, and management strategies to protect our drinking water.

Potential contamination sources common in our protection areas are septic systems, roads, landscaped areas, and wells.

Additionally, our wells and springs have a low susceptibility to potential contamination.

We have also developed management strategies to further protect our sources from contamination.

Please contact the Annabella Town office if you have any questions or concerns about our source protection plans.
